

1:1

Helps enable a personalized 1:1 learning environment

by wirelessly communicating with mobile devices using SHARP Display Connect™ or third party applications including Splashtop® Mirroring360

Benefits of OPEN PLATFORM INTERACTIVE DISPLAYS in the classroom

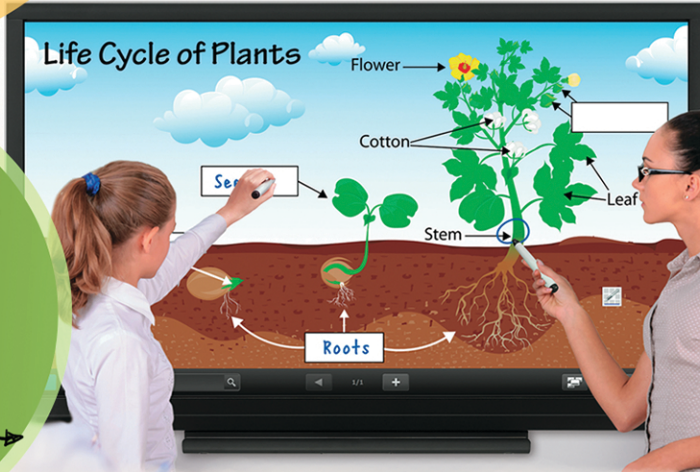

Students are mostly already familiar with the technology

because they already use tablet technology at home

Integrates with leading learning management systems

such as Blackboard®, Promethean® ActivInspire™ and ClassFlow™, Google® Classroom, Splashtop® Classroom and more

Lessons can be more productive

because there is no need to learn an entirely new system

Brought to you by the Sharp wireless AQUOS BOARD® interactive display system

Seamless integration

with existing classroom infrastructure and software investments

Instructors can grab students' attention effectively through graphics, websites and videos

Helps prepare students for the workforce after graduation

Works great with existing AV control systems for ULTIMATE collaboration

Instructors can save and share classroom lesson plans, annotations and lectures

Maintenance-free equipment

There are no bulbs to replace, no shadows and no warm up/power down time

Up to 100 students can view and participate

in a presentation while in the same lecture hall or remotely through VPN using their tablets, smartphones or computers

Instructors have the freedom to save and share

classroom lesson plans, annotations and lectures

Lowers costs for schools

because they don't have to provide devices for students who already own them
